This is the 8th year that the Meadview Area Chamber of Commerce has sponsored the Boat the Lake Festival and committees are working diligently to make this year’s event the biggest ever.

It is no secret that Meadview loves boating, so it is fitting that we kick-off the start of the boating season each year with a party. With reports of higher lake levels, we have more reason to celebrate in grand style. You won’t want to miss any of the activities, so we are giving you a sneak preview of some of the attractions of this year’s event.

The parade of boats, ATV’s, antique cars and folks just walking has always been a popular part of the activities of the day. This year will be the 4th year that the Legion Riders will be our Color Guard. We are proud that their official debut appearance in Meadview was the 2016 Boat the Lake Parade. May 18 is also National Armed Forces Day so it is very appropriate that we will be honoring the Veterans who served in many combat operations throughout the world including WWII.

The oldest participant in the parade is Lucille Sunde at 98 years young. Look for her with the group of past Grand Marshals. Bobby and Brenda Porzio have been nominated to be Grand Marshals this year. However, at their request an Honorary Grand Marshal has been added for this year only. Anna Marie Shields will be riding in the pristine, antique vehicle behind Bobby and Brenda. Look for District 4 Supervisor, Jean Bishop driving her beautiful Corvette convertible. The Plaza will be bustling with over 20 vendors, artisans and non-profit organizations. This is a great way to connect with many of the organizations and the volunteers that have a prominent place in Meadview. Take time to visit the non-profit booths; you may find one that you might like to join and volunteer to help.

By popular demand, the Lonesome Dick Band will entertain us from 11-2:00 pm and we will have space for dancing. Raffle tickets can be purchased in advance from Anthony Carter. We are offering lots of prizes and the Grand Prize is a large flat screen TV.

Back by popular demand, the Lonesome Dick Band will entertain us from 11-2:00 pm and we will have space for dancing. Raffle tickets can be purchased in advance from Anthony Carter. We are offering lots of prizes and the Grand Prize is a large flat screen TV.

We couldn’t throw a party without good food and cold beverages. Hamburger and hot dog plates with beans and chips have been a mainstay of the festivals and Black Bridge Brewery will return with a selection of draft beer. Enjoy a meal, sip a “cold one” and visit with friends and neighbors under the “Fun In The Sun” canopy.

This is a great way to connect with many of the organizations and the volunteers that have a prominent place in Meadview. Take time to visit the non-profit booths; you may find one that you might like to join and volunteer to help.

Stop by the VFW and American Legion tables in front of the MANNA Office and be sure to talk to Connie Hargreaves about the petition she would like to have folks sign. The COM Booth will be selling ice cold watermelon slices. The proceeds will be contributed to a Special Project that will be unveiled at the October 3 COM Meeting.

COMMUNITY NEWS

MAY 2 COM MEETING REVIEW

President Jonathan Kiser opened the meeting leading the audience in the Pledge of Allegiance. In honor of Mother’s Day, Jonathan asked Mothers, Grandmothers and Great Grandmothers to stand. He awarded sweet treats from Babe’s Café to the top three with the most combined children, grandchildren and great grandchildren.

Board members held clipboards with sign-up sheets so folks could volunteer to assist on the various projects COM is sponsoring for 2019. The clipboards will be on the sign-in table for every meeting.

Jonathan introduced BLM Ranger Carrie Wolstal who reported about petroglyphs that had been vandalized in Mohave County. Some of designs were chipped away from the rock surface. Carrie reminded everyone to be sure to call her if they see any suspicious activity that should be reported to BLM.

Secretary Adrienne O’Keeffe read the minutes from the April 4 meeting. Treasurer Tom O’Keeffe reported an opening balance of $4,013.92 April 1 and a closing balance of $3,871.64 as of April 30. Income reported for the period was $457.00 with expenses of $599.28.

Jonathan turned the meeting over to Karen Stacy who introduced the speakers scheduled for the meeting. First, she introduced Connie Hargreaves who discussed a petition to be signed asking to have 74 servicemen who were killed in Viet Nam to be added to the Viet Nam Memorial Wall. At the time the wall was created, they did not meet the criteria established for their names to be included.

Sharon Baur and the Friends of the Arizona Joshua Tree Forest presented Ranger Carrie Wolstal with a beautiful framed poem acknowledging all the work she has done for the area.

Karen Stacy introduced Arthur Gunzel, Facilities Manager of Lake Mead National Recreation Area. Art gave us updates on current Lake Mead level which is 1088 feet and approximately five feet higher than last year. He is encouraged about expected lake levels for the remainder of 2019 and into 2020. He also reported that the National Park Service is committed to keeping the ramp at South Cove operational. They are still understaffed with a staff of 11 that work for Lake Mead National Recreation Area out of the office in Boulder City. He hopes to return to Meadview for another COM Meeting later in the year.

Anthony Carter and Bill Needham did a presentation on behalf of the Meadview Area Chamber of Commerce and what we can expect at the Boat the Lake Festival Saturday May 18. All prior Grand Marshals in the audience were asked to come to the podium. Grand Marshals for 2019 Bobby and Brenda Porzio announced this year AnnaMarie Shields will join them as an Honorary Grand Marshal. COM will have a booth at the Boat the Lake Festival selling watermelon slices. The proceeds will be donated to a Special Project that COM is sponsoring and that will be unveiled at the October 3 meeting.

This is the last COM Meeting until we reconvene September 5. We hope everyone has a great summer and we look forward to seeing you all in September. Watch for the August Community News for information about the speakers scheduled for September.

FROM THE DESK OF SUPERVISOR JEAN BISHOP

DISTRACTED DRIVING BILL

Supervisor Bishop is the County Supervisors Association of Arizona (CSA) Legislative Liaison representing Mohave County. CSA passed a resolution last December urging the Legislature and Governor to ban the use hand-held portable electronic communication devices while operating a motor vehicle and make failure to comply a primary offense due to the concern about the patchwork of regulations emerging across the state (Resolution Number 3-18).

Governor Ducey has now signed HB2318 into law making Arizona the 48th state to ban texting and the 18th state to ban the use of hand-held portable electronic devices while driving. The law took effect immediately upon the Governor’s signature, but law enforcement officers will not begin issuing citations right away. Instead law enforcement officers will educate drivers and issue a warning allowing citizens time to change their driving behavior until January 1, 2021.
Greetings from Kristi Blair, your Mohave County Recorder. This month I want to share some changes that have occurred or may be coming in the near future:

Last year’s legislature, in conjunction with the land title industry, implemented a standardized fee for recording documents. Beginning July 1, all recorded documents will be a flat fee of $30.00. Fee structures can oftentimes become confusing depending upon the transaction and this will simplify the process.

Please feel free to contact our office (928) 753-0701 or visit our website at www.MohaveCounty.us., select Government/Recording Fees for additional information.

Please remember that we now have combined offices with the Assessor in Bullhead City and Lake Havasu City to assist you with recordings.

We are very busy with the implementation of a new statewide voter registration system. Testing has been ongoing and training will begin in June for staff. We are hoping for a successful transition in preparation for the 2020 election cycle.

There were approximately 75 bills this legislative session regarding elections and voter registration. Several are worth mentioning on their own of changes that have occurred or bills of particular interest:

- SB1090, was recently signed by the Governor and was not supported by any of the County Recorders, the County Supervisors Association, the Arizona Association of Counties or the Secretary of State’s Office. It is in regards to emergency voting and additional requirements that need to be met by voters. The responsibility for emergency voting has also been placed under the authority of the Board of Supervisors rather than the County Recorders.

- SB1072 also signed by the Governor, now requires identification at an early voting site in order to receive an early ballot. Identification was previously a practice but not a requirement when voting at an early voting site because your signature was subsequently verified before the ballot was accepted.

- SB1054 also signed by the Governor, allows voters whose signatures were inconsistent with their signature on file to be allowed five business days to correct the discrepancy. During the General Election of 2018, this became an issue as most of the counties determined this time to be 7:00 p.m. on Election Night while several counties allowed up to five days after the election for voters to verify signature discrepancies. This ensures all 15 counties are following the same requirements for signature discrepancies.

- SB1154 aims to change the Primary Election date to the first Tuesday in August beginning in 2020.

- HB2616 establishes a penalty for anyone who receives voter registration forms and knowingly fails to submit within ten business days to the County Recorder as well as a felony charge for knowingly altering a voter registration form without the consent of the registrant.

Our Voter Registration Division has been busy with voter registration drives throughout the County. We have been attending local high schools and college events and welcome the opportunity to assist with voter registration. We hope to offer training for anyone interested in supporting voter registration drives in the near future. Please feel free to contact our Voter Registration staff at (928) 753-0767 with any questions you may have. Please remember if you move or change your mailing address to be sure to notify us.

Thank you again for the opportunity to serve as your Mohave County Recorder. It is a privilege and an honor to serve you.

Next month’s article will be from your Mohave County Sheriff, Doug Schuster.

7 tips for preparing your watercraft for boating season

To ensure a safe and successful start to 2019, the Arizona Game and Fish Department recommends that boaters thoroughly inspect and prepare their boats before launching on the water to help prevent potential problems.

There are seven key steps to inspecting a boat or personal watercraft and preparing for the first day of the season:

1. **Fuel system** — Check the fuel system for any leaks or damages. Give special attention to any fuel lines and connections. Damaged fuel hoses could either be cracked, brittle or soft. Also ensure the engine exhaust and ventilation systems are functioning properly. Before starting the engine, open the engine cover and smell for the presence of fuel vapor. Leave the engine cover off when first starting to inspect for proper functioning of the engine.

2. **Belts, cables and hoses** — As with fuel lines, inspect all belts, cables and hoses that may have been damaged while in storage. Inactive items can become brittle and may crack. Ensure belts are fitted tightly and that there are no cracks on the outer jacket of the throttle, shift and steering control cables.

3. **Electric system** — Inspect all electrical connections to ensure they are clean, tight and corrosion free. All electrical systems should be regularly inspected by a qualified technician.

4. **Fluid levels** — Check all fluid levels including engine oil, power steering, power trim reservoirs and engine coolant. Also be sure to change the engine oil, oil filter and drive lubricants.

5. **Propellers and hulls** — Ensure propellers are free of dings, pitting, cracks and distortion, and that they are secured properly. On the hull, inspect for blisters, distortions and cracks. Also make sure the vessel’s drain plug is in place before launching.

6. **Safety gear** — Check to ensure all life jackets are in good condition and that they are the right size and fit for your passengers. On average in Arizona, life jackets should be replaced every five years. State law requires that anyone 12 and under must wear a life jacket at all times when the vessel is underway and there should be one life jacket aboard for every passenger. In addition, a throwable flotation device — usually a cushion with handles or a ring buoy — is required for all watercraft longer than 16 feet, except for canoes and kayaks. Also check to ensure the fire extinguisher is fully charged and stowed in the proper location.

7. **Take a safety course** — The Arizona Game and Fish Department offers free courses in Phoenix and Lake Havasu City every month to provide boaters with information and tips needed to stay safe while on the water.

For more information on boating safety or to register for a hands-on or online safety course, visit [www.azgfd.gov/boating](http://www.azgfd.gov/boating).

The Boat the Lake Festival and parade is on May 18th. The Friends of the Meadview Library are selling raffle tickets for a “Fun in the Sun” beach backpack which includes various items for use at the lake or the beach. The drawing for this wonderful, unique bag will be held on May 18th at Noon at the library. Tickets are available now during library hours and you don’t have to be present for the drawing. All the proceeds from this raffle will benefit our local library. We thank Vicki Mildice for donating this bag and with all the items included.

The Mohave County Kingman Library District is offering a Summer Reading Program for all the libraries in the County starting May 25 through July 13. If you live in Meadview, you may sign up during the library hours or online at the Mohave County Library District website. Tonia, our Library Representative, will be glad to help you sign up in Meadview. If you complete the Summer Reading Program, you will be entered into a drawing for a $25 gift card for the Family Dollar Store.

The Friends of the Meadview Library will meet on May 18th at 3:00 P.M.

**VFW POST #11014**

What a great start to May! Thank you to the team that cleaned Pierce Ferry Road for the VFW and American Legion areas....veterans taking care of their community roads.

Loyalty Day Flag Raising was well attended with a lite lunch afterwards. Again, thank you to the volunteers for their help and our community for standing up for the United States.

The VFW will be at the Boat the Lake Festival. We are asking all Veterans to stop by and sign the petition to have 74 sailors who died in a SEATO operation of Vietnam names added to the Vietnam Memorial Wall in Washington DC.

Memorial Weekend there will be a YARD SALE in the parking lot of the VFW. Please stop by and find that item or trinket that you can not live without. Donations for our service projects is greatly appreciated. The sale will be Friday and Saturday from 9 am to 1 pm. Join the VFW Auxiliary on Friday fish night, your choice of Fish, Chicken, Shrimp or any combination thereof for $7.00.

On Memorial Day there will be a Flag raising at 11:00 am and lite lunch to follow. Please join the VFW members in honoring those that gave their lives so that we may enjoy the fruits of Democracy and live safe and free.

**QUAIL CLUB NEWS**

The next Quail Club meeting will be held on Tuesday, May 21st at 10:00 am at the MCA. The program will be the installation of Quail Officers and we will be having a potluck.

The Quail Club will go dark the months of June, July and August. Hope you join us back again on September 17th when we will have a get acquainted Social and Potluck.

You don’t need to be a member of the Quail Club to attend the meetings. Hope to see you there on May 21st.

Carole Duran
Club Reporter
IS IT SO WRONG TO WANT TO REVEL IN GOOD WATER NEWS A BIT?

After enduring more than 19 years of lingering drought in the Southwest and its implications for the Colorado River system, we think not.

In April, Congress has passed, and the President has signed into law, the Colorado River Drought Contingency Plan Authorization Act, which permits the Secretary of the Interior to sign a DCP agreement with the Seven Basin States.

Considering the very serious potential consequences of Lake Mead water levels falling to critically low levels, that is truly something worthy of celebration. So, too, was the remarkable bipartisanship and leadership on display among the Arizona congressional delegation, which led the DCP effort in both the House and Senate.

On top of that, hydrology reports both in-state and in the Colorado River system indicate a 2019 winter snowpack that in many cases is well above average.

The implications of the Bureau of Reclamation’s recent April 2019 24-Month Study of projections for the 2020 water year (and, as the name implies, the next 24 months) are especially significant.

The Bureau updates its projections each month, but the April report and the August report are critical in determining how much water will be released from Lake Powell into Lake Mead in the coming year. The elevation levels forecasted to be in each of those reservoirs at the end of each year trigger those releases.

Up until the 2019 snowpack in the Rocky Mountains began seriously building in February, the odds of a first-ever shortage declaration in water deliveries in 2020 were better than even. With every 24-Month Study report from February onward, however, those odds decreased. By the recent April report, the Bureau’s analysts expressed confidence that Lake Mead would likely start 2020 “almost 10 feet above the shortage determination trigger of 1,075 feet.”

As reported by the Bureau, the improved hydrology allows Lake Powell’s operation this year to shift to a “balancing” release of up to 9.0 million acre-feet into Lake Mead.

As Bureau Commissioner Brenda Burman noted, this year’s snowpack “is welcome news.” Still, she noted, “one good year cannot reverse the effects of nearly two decades of severe drought. Current total Colorado River System storage is approximately 45% of full capacity.”

KRMC EMERGENCY DEPARTMENT EXPANSION BEGINS

Kingman Regional Medical Center has announced that a 19-month project to expand its Emergency Department (ED) has begun. The expansion will include a new ambulance bay, additional waiting areas and nearly double the number of patient beds—all in private rooms.

To obtain additional space, the existing ED will be expanded eastward toward Stockton Hill Road where the current emergency parking lot is located. A new ambulance bay and ED entrance will be constructed on the north side of the building.

The project began on May 1, 2019. First, a temporary ambulance bay is being built on the north side of KRMC at the pharmacy entrance. (This door is now closed to the public. People are urged to use the main hospital entrance instead.)

The temporary ambulance bay is scheduled for completion on May 20, 2019. At that time, KRMC will close the current ambulance bay facing Stockton Hill Road and redirect ambulances through the north parking lot to the new bay. Ambulances traveling northbound on Stockton Hill Road will cross over to KRMC on Sycamore Avenue. All area emergency response agencies have been notified of this change and appropriate signage will be posted. After the temporary ambulance bay is complete, construction of the permanent ambulance bay and a new public entrance will begin on the north side of the building. Expected completion is August 1, 2019.

Once the new north-side entrance is open to public, the existing ED entrance facing Stockton Hill Road will be closed. A fenced construction zone will be established around the current emergency parking area. This will stay in place until the building expansion is completed around October 1, 2020.

From now through August 1, 2019, people should continue to use the existing ED entrance and emergency parking area. However, after August 1, public access to the ED will be redirected to the new entrance on the north side of the building. Emergency parking will be designated in the north parking lot.

Road signs will direct the public on the appropriate route to the Emergency Department during and after construction. Please watch for further announcements as the project progresses.

If you have questions or comments about the emergency department expansion project, please contact KRMC Public Relations at 928-681-5061.
**PUBLIC INFORMATION MEETING NOTICE: HTUA**

**New Substation and Distribution Line at Grand Canyon West Route Study**

The Hualapai Tribal Utility Authority is proposing to construct a new sub-transmission interconnection (69kV) on lands managed by the Bureau of Land Management and the Hualapai Tribe. The new line would allow for an interconnection between the UniSource Energy Services (UNSE) electric grid and a new radial power distribution system and substation located at Grand Canyon West. Grand Canyon West is a tourist destination located on the northwestern portion of the Hualapai Indian Reservation.

Grand Canyon West employs 650 people including 250 Hualapai tribal members and includes a bustling airport, is not connected to the regional electric utility grid and has relied instead for all its electric power needs from on-site diesel generation. Tying into the UNSE grid will achieve the goal of providing access to wholesale power as well as federal allotments from the Colorado River Storage Project and Boulder Canyon Project. Members of the community are cordially invited to attend an open house meeting with a presentation explaining the preferred alternatives and resource analyses conducted to date. Community involvement is encouraged.

Three meeting locations are available:

- May 21 in Peach Springs at the Hualapai Tribe’s Multi-Purpose building (470 Hualapai Way, Peach Springs);
- May 22 at the Dolan Springs Community Council meeting room (15195 N. Pierce Ferry Road, Dolan Springs); and
- May 23 at the Meadview Civic Association meeting room (247 Meadview Blvd, Meadview).

All three meetings will present the same information and will be held from 4:00 PM to 6:00 PM.

Individuals requiring assistance may contact Tierra at (800) 887-0847 at least 48 hours prior to the meeting so that arrangements may be made.

---

**KRMC WILL DISCONTINUE OPEN-HEART SURGERY**

Kingman Regional Medical Center (KRMC) announced that it will no longer perform open-heart procedures, effective the end of June. Other advanced interventional heart procedures and thoracic (lung) procedures performed by cardiologists and thoracic surgeons will continue to be offered to KRMC patients.

In July of 2009, KRMC received licensure from the State of Arizona to provide open-heart procedures. Over the years, it has taken significant hospital resources to maintain the program’s viability—while serving only a relatively small number of people.

According to KRMC CEO, Brian Turney, “We were eager to offer this advanced capability to our community, so the decision to discontinue was extremely difficult. However, it just isn’t sustainable at this time.”

In determining whether to continue performing open-heart procedures, hospital officials reviewed multiple factors, including patient volumes, the complexity of patient conditions, clinical performance, and financial operations.

Additionally, KRMC officials considered emerging trends in the healthcare industry. New medical advances that involve less-invasive surgical procedures are starting to impact the demand for open-heart surgery. However, at this time, these newer procedures are highly-sophisticated and require the expertise of specially-trained physicians.

“We came to the realization that to produce the results our patients deserve, even more human and financial resources were needed for the program. This, in turn, would jeopardize necessary investment in other important medical service lines that can ultimately benefit more people,” Turney said.

He added that hospital officials will “reexamine the service in the future to evaluate if changes in community demographics or industry trends paint a different picture.”

In the meantime, local patients who require open-heart procedures will be referred to appropriate providers in the region depending on their individual clinical needs. Heart patients are urged to talk with their cardiologist to evaluate their options.
